

Brahma Baba's Biography

World remembers him as **Aadi Dev** (first deity) or Adam, as written in many texts. In Vedas, Brahma is described as the creator of the world, Vishnu as the maintainer. We now understand that through Brahma, incorporeal God (**Shiv**) creates the new world. So how simple and serving the life of Brahma baba was, come and know from the beginning, as it is told by elder Dadis, came in Murli and revealed from the letters.

His childhood name was **Lekhraj**, who was born on **15 December 1884** in Sindh, Hyderabad (in present Pakistan) to father Khubchand Kriplani, a head-master in village's school. Lekhraj's mother passed in his early childhood. Below is the Full video, telling from the early story to what happens around 1936 and the creation of 'Om Mandli'.

As written on [history](#) page, since 1935-36, Dada Lekhraj, a diamond merchant started receiving visions from God. In those days, it was not clear who is doing this. On divine inspirations, Dada Lekhraj started a school and taught spiritual versions and Geeta to children who came there. It started with an explanation of true God of Geeta being the incorporeal [God Shiv](#), and not Shri Krishna (a deity of [Satyug](#)). The name 'Brahma' was not yet given, nor the name 'Shiv' was known as the God to anyone in the Yagya. Dada Lekhraj gives all his wealth to a trust made of a few surrendered mothers and unmarried girls. Now Yagya was maintained by mothers. Here is the beginning of a divine journey. Those who surrendered, now came and settled in Karachi (Pakistan) and spend 14 years in Tapasya (*self-transformation*)

Since 1952, services grown, and Brahma baba also started visiting centres around India. BaapDada's letters were guiding light for angels living at centres around India.

Personality and Virtues

Brahma baba, as named in 1949, was a special soul who played the most special part as a human. He becomes the medium for God to speak Murli and to create the new world. Such special soul

had an un-matching virtue of Tyaag (*renunciation*). Whether it is material wealth, fame, or comforts, Brahma baba renounced everything upon Shiv baba's directions.

"His personality was very royal", often remembered by many Dadis (elder BKs) who lived with him. Whenever someone visits him, he would give something to them and would ask them about their likes and dislikes, to make a personal connection. Baba's royalty was shining on the face. He had an intoxication of the future birth as Krishna in the new world. This was incognito and thus baba remains free from ego. Living the simplest life possible, Brahma baba showed the path of God to many and his virtues are remembered in the hearts of those who witnessed him.

Being the world father, Brahma baba was full of mercy. Baba didn't have sleep for some nights when he used to get letters from children who are in pain (*source: [Murli](#)*). Brahma baba would give **Sakaash** to them to make them powerful. Brahma baba faced many problems in Yagya, but having undivided faith in God (Shiv Baba) and following his directions in all means.

In the last days, baba started becoming detached from his responsibilities. Distributing tasks to elder Dadis, baba stayed in Madhuban for last one year for intense meditation (Tapasya). On **18 January 1969**, baba reached his complete stage, angelic stage (which we call 'Karmateet'), and left the corporeal world. Now he has joined the incorporeal father (Shiv Baba) in the task of establishment of the Golden age. BaapDada (*a combined form of incorporeal Godfather Shiv, and first human being Brahma*) continued to speak Murli (*through chariot Dadi Gulzar*) to enhance the spiritual stage of children and speed up the task of establishment. Thus we understand that Prajapita Brahma (Sakar Baba) has now left the body and is playing a part in the subtle world.

"When everything is being taught, the teacher keeps silence. It is time to give the test."
