# 7 days RajYoga Course

**Godly Knowledge of the Creation and the Creator**

(Read - Listen - Watch - Understand - Become)

## **The Aim of 7 Days RajYog Course is:**

Consciousness & Self-realisation

**Connection & Relationship with God**

The Three Worlds

The Cycle of Time

The Law of Karma

The 7 Original Virtues of a Soul

The 8 Powers of a Soul

Four Subjects

Rajyoga Meditation

## 2. God - our Supreme Father, the Supreme Soul (Shiv Baba)

*God* is called the Supreme Soul or more accurate is that the Supreme Soul is known to us as the God, the creator Almighty. He is supreme among all souls. Yet, like souls, God is a subtle point of light. But unlike human Souls, that Soul is beyond the cycle of birth and death and the effects of Karma (actions) in the form of experience of pleasure or pain. **God is the Supreme Father, Mother, Teacher and Guide of all human souls.** We all remember Him only in our difficult time, it is such inbuilt within us. So let us explore the truth about God, as revealed by himself through *Murlis*.

### Representations of incorporeal God

Being incorporeal, *God* is represented by an oval-shaped stone or light in many religions. In **Hinduism**, *God* is worshipped as an oval-shaped stone called *Shivlingam* or *Jyotirlingam*, meaning a symbol of Shiv or symbol of light. **Muslims** revere an oval-shaped black stone called *Sang-e-Aswad* (holy stone), which is placed in the Kaaba in the Grand Mosque in *Mecca*. **Jesus Christ** (Christianity) has said and described God as '*light*'.

**Mahatma Buddha** started deep meditation and found a spiritual existence of *God*, beyond the cycle of birth and death. Hence he describes the Self as such free beings detached and as a part of *God*. All religions point to the supreme soul in one or other way. The common is clear that '**God is a being of Light**' and so is worshipped as non-physical power.

### Name of God

Everything that exists in nature has a name and a form. We get a name when we take birth. In our each birth, our name is different. But what about the name of the One who never takes a birth, is 'unborn'! His name must be eternal. So as *God* has revealed Himself with His eternal

name '**Shiv**' or '**Shiva**' (when pronounced in English). The meaning of Shiv is '**One who is Ever Benevolent**'. Benevolent means the One who does good to all in all times.

## Residence of God (Where God eternally live)

*Soul World (Home of eternal Peace and Light)*

Till now, you have understood the reality of *God* the incorporeal supreme soul. Now let us turn to what we all souls call - '**Our Sweet Home**'. This is also the Home of our spiritual father (*God*). There is complete and eternal sweet silence. Why sweet? Because here we are merged in the ocean of love. There is no body-consciousness (as there is no body). We and *God* live there as divine points of light as **an inverted tree-like structure** (as shown in the picture),

where *God* is the seed of the human tree, roots are souls who have a direct connection with the seed (*Brahman* souls) and branches represent the religions established in the world. Rest leaves are souls of those religions. As clearly shown, **God the seed is the source of power for all the branches and leaves.**

**Names to represent the Soul World:** Home of eternal light, Home of Peace, Sweet silence home, Paramdhaam (Supreme home), incorporeal world, Nirvaan (beyond sound) and Mul Vatan (the original everlasting residence).

**Introduction of God (Shiv)**

# Our Relationship with God

## As the Father

Father is the word used for the creator. In Christianity also, God is called - The Father. Actually, he is our father because **we get an inheritance of Heaven** (the Golden Age) from him. God did not create the souls (us). But he comes and re-creates the Heaven on earth. Those who help Him shall also receive this great inheritance!

## As a Teacher

Explained that the Godfather creates Heaven and gives it to His children who help and follow His **directions**. But which *directions*? So the directions are His teachings. *God* is called the ocean of knowledge. He comes and imparts the entire knowledge of the creator and the creation to His children. He is also our Supreme Teacher. He gives us His advice on **what is the right thing to do so as to receive the highest fruit**.

## As a Friend

Now as we have every relation with *God*, **we can share anything with him**. Made a mistake? Go and accept your mistake. Seek forgiveness. Such a friend who gives the best advice and **is there for us anywhere anytime**.

## As a Guide

This is the last relationship with *God*. We longed for liberation. After revealing the secrets of Karma, God teaches us the RajaYog through which we the souls are freed from the results of our past actions. **God liberates us from all sorrow that we created for ourselves. Liberating us like this, he takes us back Home**.

## When does God appear before Us?

It is now understood that our relationship with God, is of Father and Son, of Teacher and Student, of best friends, of a Guru and his follower. But when does this all relationships are enjoyed? Because there should be a time all this - God is knowledgeable, The ocean of love, etc... was certainly experienced by all of us!

As discussed on the *World Drama Cycle* page, the world drama repeats. The Golden Age comes after Iron age. This is depicted as the **Transformation** time. This small time is known as **Confluence Age** (Sangam). Hence something major has to happen now. At this time only God has to appear to perform the role of '**Creator of New World**'. God needs a medium, a body to speak his knowledge. He comes and adopts us through the corporeal medium of **Brahma**. *Brahma* is the first human soul. God plays his role as the Creator through *Brahma*. So only in this time given of about **100 years** does God appear to impart us the knowledge of truth and give us the inheritance of New world (heaven). **To give you the greatest news, it was around 1936 when this incognito part of God began.** By now, the message is widely spread. And by the end, everyone would get the message.

One may observe that all the major events happened in the last 100 years only (Science, atomic power, new researches, rise of human talents and fame). This is because *God* the Source is Himself on the earth now. *God* fulfils wishes of His children before it is time to go Home.
